## **Methodist** Methodist International Lecture Series

2008 Program

In our continual effort to support medical education of health care professionals, Methodist International presents the 2008 International Lecture Series program. A Year long program that bundles the most relevant medical information compiled from Methodist Hospital physicians and it's centers of excellence. This year we offer an array of innovative and relevant material from a variety of specialties and subspecialties, each lecture with an individuality of its own. Methodist International is proud to present the following lectures:
